PROJECTS

- **Task Manager**—HTML5 ,CSS , JavaScript : [GitHub](#)

A student-focused task organizer with features to add, delete, complete, and reorder tasks using drag-and-drop. Includes smooth animations and persistent storage via localStorage for managing study and assignments.

- **Mess Management**— HTML5 ,CSS , JavaScript ,jsPDF: [GitHub](#)

A responsive web app to track daily tiffin records, deductions, and bills with real-time calculations and customizable mess settings. Features PDF export, localStorage persistence, and dynamic table generation for seamless mess tracking..

- **Portfolio**— [ReactJS](#) ,[Nextjs](#) ,[GSAP](#) ,[NodeMailer](#) : [Live](#)

A modern, animated developer portfolio built using ReactJS, Next.js, and GSAP, showcasing projects and skills with smooth scroll-triggered animations. Integrated with NodeMailer for functional contact form support.

WORK EXPERIENCE

Web Development Intern

Technohacks, Maharashtra, India

Feb 2024 – Mar 2024

- Successfully completed a virtual web development internship at Technohacks, delivering three front-end projects using HTML, CSS, and JavaScript. Gained hands-on experience in responsive UI design, DOM manipulation, and real-world project workflows.

EXTRACURRICULAR ACTIVITIES

GFG-160 days Challenge

Jul 2023 – Apr 2024

- Actively participated in GeeksforGeeks 160 Days Coding Challenge, solving daily DSA problems to strengthen core problem-solving and algorithmic thinking.
